

Sustainability Policy Statement

Our vision is to be a leader in our industry in terms of applying the principles of sustainable construction throughout our environment. We are committed to continual improvement and to the delivery of more sustainable processes and practices in those areas where we have direct control or the ability to influence others.

Our sustainability aim is to ensure the highest professional standards to meet the needs of our stakeholders.

Our approach to sustainability covers three areas:

With our people ...

- ... *to further develop* the skills of our people and enhance opportunity
- ... *meet or exceed* national and international standards of social responsibility including social inclusion, equality and human rights
- ... *promote sustainable* working practices throughout our supply chain and individual projects

With the environment ...

- ... *systematically increase* resource efficiency, reduce dependent on non renewable resources, prevent pollution and reduce our carbon footprint
- ... *minimize waste* and maximize recycling
- ... *ensure compliance* with all applicable laws and regulations

With the communities in which we operate ...

- ... *be a good corporate citizen* by taking responsibility for our actions and by playing our part in society
- ... *systematically improve our capability* to offer our clients more sustainable glazing alternatives
- ...*improve the dialogue* and communication with all relevant stakeholder groups

To support our sustainability aims we will be open and transparent about our performance,

A copy of our Sustainability policy will be made available to any interested party.

Overall responsibility for this policy rests with the Directors of Syte Architectural Glazing Limited

For and on behalf of Syte Architectural Glazing Limited
